Safety directions

Please study the instruction manual and below information carefully before installing or using this product.
Please keep this user manual for further reference.

1. Take account of the minimal separation distance from other objects and the room required around the fitting.
2. If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
3. Meaning of symbols:

For indoor use only, where direct contact with water is impossible

Protection class 1: the fitting must be earthed

Protection class 2: the fitting is double insulated and does not require earthing

Protection class 3: the fitting is low voltage

Observe the indicated minimum distance between the lamp and the illuminated materials/objects

Only the self-screening halogen illuminants should be used with the luminaire

Strip the wire to the indicated length

Connect using the specified cable

The armature can be used in combination with a dimmer. Consult the sales outlet for the correct type of dimmer (important in the case of 12V fittings)

The maximum wattage indicated in each lighting unit, for example, must not be exceeded

This luminaire cannot be disposed together with normal domestic waste in standard rubbish bin, but you have to bring it to a staging area for electrical waste

This luminaire was designed to work only with the indicated voltage
