

wästberg / w 126 claesson koivisto rune

#### Product Information

Historic industrial design icons, such as Starship Enterprise or Citroën's steering wheel, were inspirational when designing the w 126 uplighter. Admittedly, two quite technical examples, but this is a lamp that demanded both highly advanced engineering and a bit of iconicity.

Two powerful and separate LED light sources, one up and one down, with separate dimming, allows you to set the light to any desired ambience. No need for a manual. Two simple touch buttons makes operating intuitive.

This lamp does not fly through outer space, nor does it roam the highway, but it stands in an architectural context. Significant in expression, yes. But reduced in form and shape to feel at home in your room, whether in an office, hotel or at home.

Design: Claesson Koivisto Rune

---

<b>Material</b>	The shade, dimmer housing and base are made of die-cast aluminium. The tubes are made of extruded aluminium.
<b>Powerful integrated LED</b>	The powerful, 9.000 Lumen lighting technique is based on 250 highly energy-efficient, high quality LEDs, which give a warm white light.
<b>Dimmable</b>	The light is individually dimmable upwards and downwards with two separate dimmer buttons.
<b>Diffuser</b>	A superior light diffuser material with low light absorption gives an even, glare-free and efficient light.
<b>Indirect light</b>	The lamp gives an indirect light by being lit upwards.
<b>Direct light</b>	The lamp gives a direct light by being lit downwards.
<b>Multiple mounting options</b>	The w 126 claesson koivisto rune is available with a base or a pin.
<b>Flat pack</b>	w 126 claesson koivisto rune features a clever system of micro-connectors, which allow the lamp to be easily assembled from flat pack.
