

# round control 1,2,3

'Round control' is designed as a ceiling- and wall surface mounted system. During the installation, it can be adapted to any architectural concept due to countless variations in the design. The graphic character of the minimalistic design reveals its functions very honestly. Round control is devised for lighting rooms in commercial areas, board rooms and lounge areas as well as residential rooms. The indirect lighting with high power LED modules - creates a soft and comfortable atmosphere when dimmed and provides a functional lighting at full power.
