

bow

design by david dolcini

Since Roman times, the 'arch' is one of the basics in architecture. It's part of our daily life (even if we don't notice it), and it expresses at the same time deepness, strength and equilibrium. 'bow' tries to translate the essence of the arch into a minimalistic luminaire. Gravity and balance, combined with the arch, are the other ingredients involved in the design of this product.

It is a small family composed by a floor/hanging lamp, and 7 different chandeliers (2, 4 or 6 bulbs).
