Venetian heritage — for today

Sono ispirate alla tradizione veneziana le lampade Mom, che nella forma e nelle finiture opache si rifanno ai classici vasi in vetro di Murano. Disponibili anche nelle varianti da tavolo e applique, in versione lucida sono simili a pietre preziose.

Mom lamps are inspired by the Venetian tradition, and refer, in the shape and opaque finishings, to the classical Murano glass vases. Also available in table and wall variants, in the glossy variants they look like precious stones.

A close-up photograph of a faceted glass pendant. The pendant is a teardrop shape with multiple facets, creating a complex play of light. It has a warm, golden-brown hue, likely due to the lighting or the glass composition. The background is dark and out of focus, with some faint, blurry lights visible, suggesting an indoor setting with ambient lighting. The pendant is the central focus, with its facets catching and reflecting light in a way that creates a shimmering effect.
