Data Sheet

Ceiling M 150, 200, 300, 450, 600

REFLEX² M 300 · white

REFLEX² M 300 · black

REFLEX² M 300 · white

REFLEX² transfers the principle of the classic REFLEX luminaire to today's technology and aesthetic sensibilities. The precursor already presented a convincing lighting solution at the central ceiling connection in a space by employing a special ceiling reflector. REFLEX² now opens up this formerly closed body and further develops it into a delicate, elegantly rounded frame structure that contains the LED boards. Their light hits a prismatic reflector surface of the same basic dimensions.

Examples of applications:
Even at full power, REFLEX² creates an absolutely glare-free light, whose color may further be adjusted optional via Bluetooth from a warm lightbulb glow to pure white using Tunable White technology. As such, the subtle structure gives rise to intensive lighting moods in the space.

Technical data sheet

REFLEX² Floor takes up the principle of indirect lighting, which beams light into the space by means of a ceiling reflector or the ceiling, meaning that the luminaire can be put to effective use regardless of the color and properties of the ceiling, e.g., on dark ceilings. With different height versions, REFLEX² offers design options for any ceiling height.

Design Jean-Marc da Costa

Awards

German Design Award Winner 2020

Material & surfaces

housing	aluminium black or white coated
reflector	Plexiglas® Pyramid structure rear-coated white, silver or gold or Plexiglas® matte white
lamp cover	glass semigloss

Dimensions in mm

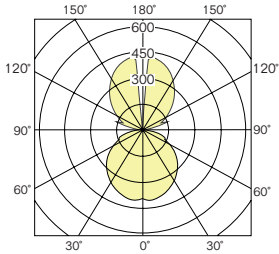

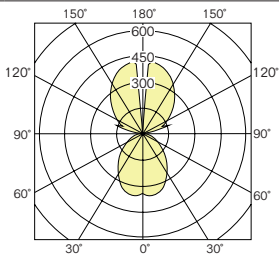

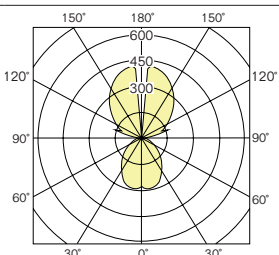

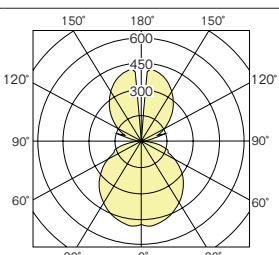

Technical data

Illuminant	LED				
Power	40 W		50 W		
Color temperature	2700 K	3000 K	2700 K	3000 K	2200-4000 K TW
Luminous flux LED (nominal value)	4900 lm	5000 lm	5700 lm	5800 lm	6040 lm
Operating voltage	220 – 240 V				
Control	TRIAC, 1-10 V		DALI (DT6), DALI TW (DT8)		
Average lifetime LED	50.000 h*				
Energy efficiency class	A				
Warranty	2 years				
Weight	2,2 kg	2,3 kg	2,3 kg	2,4 kg	2,5 kg
Features	LED exchangeable, easy assembly, reflector easily exchangeable				
Marks	IP20 CE ⚡ F ⓧ

REFLEX² Ceiling M Reflector

figure	description	Art.-Nr.
	pyramid structure white	RE3001
	pyramid structure silver	RE3002
	pyramid structure gold	RE3003
	matte white	RE3004

REFLEX² is a modular article. Please order the lamp unit and reflector together.

Special versions

Other versions (CCT/CRI), different coatings and special lengths available on request.

Lighting data

All values are rated values. Power and luminous flux are subject to an initial tolerance of +/- 10%.

Tolerance of color temperature: +/-150 K. When not otherwise indicated the values apply for an ambient temperature of 25 °C.

The specified nominal and measured values refer to the illuminants used at the time the data sheet was prepared. Omissions excepted.

Caption

+C	+C indicates products with pre-programmed CASAMBI module integrated in the luminaire. The CASAMBI functionality is basically applicable to all our products. For the different possibilities of integration (depending on the temperature) –in the luminaire, in the suspended ceiling, in the switch or the distribution box) we will be pleased to inform you. CASAMBI is a lighting control system which is operated via Bluetooth and can be integrated completely into the luminaire or behind the light switch. It is controlled via mobile devices using the free CASAMBI app, making its operation simple and intuitive. CASAMBI expands the possibilities of control with new options such as dimming, the programming of specific scenarios or groups, automations and many more. For further information, please visit www.casambi.com .
CCT	CCT (Correlated Color Temperature) is the colour temperature of an LED and is specified in Kelvin (K). We supply LED lights with a colour temperature of 2700 K at short notice. LED lights with a color temperature of 3000 K and higher usually have longer delivery times.
CRI	Colour Rendering Index
D2W	Luminaires with this characteristic have the Dim2Warm function which, when dimmed, reproduces the colour gradient with the warmer light colour of a classic filament lamp.
DALI 1-10 V	5-core mains cable required for control via DALI or 1–10 V. All LED luminaires operated with DALI power supply units are suitable for use in emergency lighting systems.
Lumen	The luminous flux (lumen) specifications are nominal values, i.e. pure module luminous flux values. The luminous flux indicates how much light radiates in all directions.
TW	Luminaires with this characteristic have variable colour temperature control from warm to cool white light.
UGR	Unified Glare Rating
IP	Protection class
LOR	The luminaire operating efficiency is given as a LOR value (Light Output Ratio) in percent.
	The photometric data (EULUMDAT) can be downloaded from https://serien.com/downloads/
	We are happy to make the Excel file with article numbers and current prices available to our trade partners. Please contact us at: serien@serien.com
	The crossed-out wheelee bin indicates that this electrical appliance must not be disposed of via household waste. In order to protect human health and the environment against potentially hazardous substances, at the end of its lifecycle this product can be taken to a collection point close to you and disposed of free of charge there. This separate disposal enables electrical appliances to be reused or recycled.

At www.serien.com/downloads you will find helpful information and the latest technical data:

Data sheets, catalogues, price lists, lighting data (EULUMDAT), 3D CAD data, declarations of conformity, returns form, FAQs, assembly instructions, drilling templates and other service instructions.
