

FR MONTAGE de l'applique PAROS (hôtellerie)

Cette applique est conçue pour être encastrée ou placée uniquement au niveau d'une tête de lit

1. Il faut y prévoir une découpe ronde de $\varnothing 68\text{mm}$ pour y placer un boîtier d'encastrement (format standard et profondeur moyenne) ou une découpe rectangulaire verticale de 45x60mm
2. Raccordez votre arrivée de courant (240V) au convertisseur (*driver*)
3. Vissez la plaque **A** sur le boîtier d'encastrement ou sur le contour de la découpe rectangulaire
4. L'applique se referme avec la plaque décorative **B**. Elle sera maintenue par l'anneau **C** au niveau du flexible et par le cache-interrupteur **D** sur l'interrupteur à bascule **E** (*switch*)

NL MONTAGE van de wandlamp PAROS (hostellerie)

Deze wandlamp is ontworpen om te worden ingebouwd of alleen bij een hoofdeinde te worden geplaatst

1. Een ronde uitsnijding van $\varnothing 68\text{mm}$ is vereist voor een inbouwdoos (standaardafmeting en gemiddelde diepte) of een verticale rechthoekige uitsnijding van 45x60mm
2. Sluit uw stroomvoorziening (240V) aan op de driver
3. Schroef de **A**-plaat op de inbouwdoos of op het hoofdeinde
4. De wandlamp wordt afgesloten met de decoratieve plaat **B**. Zij wordt op haar plaats gehouden door de schroefring **C** op de flexibel en door het schakelaar deksel **D** op de tuimelschakelaar **E**

EN MOUNTING of the wall lamp PAROS (hotel trade)

This wall lamp is designed to be recessed or placed only at a bed head

1. A round cut-out of $\varnothing 68\text{mm}$ is required to accommodate a flush-mounted box (standard size and medium depth) or a vertical rectangular cut-out of 45x60mm
2. Connect your power supply (240V) to the driver
3. Screw the **A**-plate to the flush-mounted box or to the bed head
4. The wall lamp is closed with the decorative plate **B**. It is held in place by the screw ring **C** on the flexible and by the switch cover **D** on the toggle switch **E**

DE MONTAGE der Wandleuchte PAROS (Hotelgewerbe)

Diese Wandleuchte ist für den Einbau oder die Platzierung an einem Kopfteil vorgesehen

1. Ein runder Ausschnitt von $\varnothing 68\text{mm}$ ist erforderlich, um eine Unterputzdose (Standardgröße und mittlere Tiefe) oder einen vertikalen rechteckigen Ausschnitt von 45x60mm aufzunehmen
2. Schließen Sie Ihre Stromversorgung (240 V) an den Konverter (*driver*) an
3. Schrauben Sie die **A**-Platte an die Unterputzdose oder an Kopfteil
4. Die Wandleuchte wird mit der Zierplatte **B** verschlossen. Sie wird durch den Schraubring **C** am flexible und durch die Schalterabdeckung **D** am Kippschalter **E** (*switch*) gehalten

PAROS

Manufacturer : DAVIDTS LIGHTING – Brussels – Belgium – www.davidts.com

Installation and security instructions (please read and save)

This luminaire is manufactured according to European directives and standards relating to quality and safety of lighting fixtures. A declaration of conformity is available by downloading on our site.

Description of the lighting

Lighting for fixing to the wall or ceiling. More pictures, drawings and complete descriptions are available on our website.

Environmental protection

Our packaging is made from 100% recyclable or re-usable material. For care of the environment please sort or recycle. Fluorescent bulbs and waste electrical equipment should not be disposed of with household waste please take to a recycling facility. This fixture is essentially composed of solid brass. This metal and other elements are fully recyclable. At end of life, if you take the fixture to a recycling facility, each metal will be recovered for new metal production.

Installation of the lighting

This lighting is only intended for indoor use, it must be installed away from moisture, splashing and sources of heat. Suitable for direct mounting on normally flammable surfaces. Before starting the installation, ensure the electrical supply is OFF at the circuit breaker in the consumer unit. Only switching OFF at the wall switch is not adequate. Carefully remove all packaging. All of our fixtures are fixed to the wall or to the ceiling by means of a mounting plate (placement is done by means of screws and dowels, not supplied). Some of our luminaires have more detailed installation instructions (attached to this document). Please read carefully before starting the installation. If you have any doubt about the installation of this lighting, please contact a qualified electrician.

Inserting or replacing a bulb

Always ensure the electrical supply is OFF before this operation. If necessary, let the old bulb to cool for 10 minutes before removing. Place the bulb without forcing into the fitting. Do not directly touch it with the fingers, but with a cloth (fingerprints reduce the lifetime of a bulb). Be always attentive to the choice of a bulb, never exceed the maximum power (W) authorized, indicated on the labels of the light fitting. If an integral LED bulb attached to the fixture is defective, please contact your distributor.

Maintenance of your lighting

Because smoke and dust particles in the air are attracted by a heat source, a deposit will appear on the fixture in the course of time. For maintenance, allow the bulb to cool for at least 10 minutes. Clean the fixture with a paper towel soaked with glass cleaner. Never use solvents, abrasive or corrosive products. Never immerse the fixture in water. If the wires are damaged, they must be replaced by a qualified electrician. This fixture must never be modified as this can make it dangerous to use.
