An almost imperceptible lens covers the LED and distributes the light. If only the cylindrical lamp is used, the downward-directed light is impeccable, and when a shade is added, the light escapes, illuminating the lamp itself.

**Milana Counterweight**

**Milana 32 Counterweight**

**Milana 47 Counterweight**

Moving the point of light, that's the idea behind the new design by Jaime Ramirez. Milana involves a system of modular suspension lamps that combine with one another and can be moved both vertically and horizontally.

· Tener en cuenta que la medida de cuerda es de 5 m y la del cable es de 3 m.

· Keep in mind that the cord is 5 m long and the cable 3 m long.
