

Oplight W1

by Jasper Morrison , 2021

Indirect light wall lamp. Body in die-cast aluminium with powder coating. Diffusor made of injection-moulded polycarbonate semi-transparent. High efficiency LED source with a lifetime of more than 50.000 hours. The LED source can be easily replaced on site by a professional installer when it comes to the end of its lifecycle. Oplight is a future-proof lamp as no glue is used to assemble its different parts. The product can therefore be separated, replaced individually, and recycled separately.

Mounting	Wall
Environment	Indoor
Weight	0,9 Kg
Light sources available	1 x LED Module 16W 1290lm Dimmable
Emergency	Without
Dimmer	Dimmable Triac
Voltage	220-240V
Power	16W
Battery	No
Supply included	No

Materials Aluminum, Polycarbonate
